✉ pwankhede700@gmail.com

SUMMARY

Experienced Full Stack Developer proficient in Java, Spring Boot, MySQL, and Elasticsearch for backend development. Skilled in HTML, CSS, JavaScript, and Angular for creating intuitive interfaces. Experienced in Azure for cloud deployment and management, along with Spring Security and JWT for secure authentication. Proficient in Jasmine, JUnit, and Git for testing and version control, complemented by a strong foundation in Data Structures and Algorithms (DSA) for efficient code implementations.

EDUCATION

Sant Gagde Baba Amravati Unversity
B.E(Electrical Engineering)
2016 – 2019

SKILLS

- **Frontend Development**: Proficient in developing end-to-end web applications using **Angular**, HTML, CSS, **JavaScript** and **jsonForms.**
- **Java**: Experienced in building robust backend services with Spring Boot, utilizing both MySQL for database management with object-relational mapping (ORM) using Hibernate..
- **Spring Security & JWT**: Securing applications with authentication and authorization.
- **Elasticsearch**: Capable of implementing search and analytics solutions
- **Jasmine/JUnit**: Writing unit tests to ensure code reliability.
- **Azure**: Proficient in utilizing Azure services for full-stack development.
- **Git**: Proficient in version control for collaborative development.
- **Microservices** : Skilled in designing and deploying scalable microservices architectures, enhancing application modularity.

PROFESSIONAL EXPERIENCE

Senior System Engineer
Infosys limited| March 2024- Present

System Engineer
Infosys limited| Feb 2022- Feb 2024

Project: Toolbox-Horizon (Client: Boeing)

- **Technologies Used:** Spring Boot, Java, Angular, Microservices , JSONForms, Azure, Unit Testing, Elasticsearch.
- **Project Description**: Toolbox-Horizon is a comprehensive project aimed at enhancing the efficiency and reliability of an aerospace company's tool management system. The project focuses on improving user experience through a consolidated home screen, advanced search functionalities, and seamless data browsing.
- **Responsibilities**:
  - Developed and maintained backend services using Spring Boot and Java.
  - Designed and implemented dynamic forms with JSONForms.
  - Created and optimized responsive user interfaces with Angular.
  - Utilized Azure services for deploying and managing application resources.
  - Conducted unit testing to ensure code quality and reliability.
  - Collaborated with cross-functional teams to define and deliver new features.
  - Implemented security measures to safeguard application data and user interactions.

Achievements:

- **Team Collaboration**: Actively contributed to cross-functional teams, fostering collaboration and knowledge sharing, resulting in accelerated project timelines and improved team morale.
- **Recognition or Awards**: Received Awards Insta Award, Learning Champ and Star Performer of Month from peers and superiors for outstanding performance, innovative solutions, or exceptional contributions to project success.
- **Training and Mentorship**: Provided guidance and mentorship to junior team members, within the organization.
